

Sprint 3 Burndown Chart

Date	Issue	Event Type	Event Detail	Issue Count		
				Inc.	Dec.	Remaining
24/Oct/21 8:14 PM	BOUNB-12 BOUNB-20 BOUNB-70	Sprint started by Long Hei Mak		1 1 1		
05/Nov/21 9:44 PM	BOUNB-20	Burndown	Issue completed		1	2
05/Nov/21 9:54 PM	BOUNB-70	Burndown	Issue completed		1	1
05/Nov/21 10:04 PM	BOUNB-12	Burndown	Issue completed		1	0

In sprint 3, our curve dropped steeply towards the end. This is due to the fact that all of our group members had lots of midterms and assignments around these two weeks, so the time to do our tasks in sprint 3 had been squeezed. In addition, most of the tasks depended on each other, so they were completed at around the same time.

The velocity for sprint 3 is about average, and slightly lower than sprint 2. This is because we felt like our sprint 2 was kind of rushed, so we wanted to lower the number of tasks we cover in sprint 3. Even though we have had some experience with HTTP requests, we were still experimenting with stateful widgets in Flutter, so that took some time as well.
