BOUN13, BOUNB-83 and BOUNB-82 depends on BOUNB-79

It's a long task chain and tasks are closely related to each other.

The critical path is BOUNB-79 -> BOUNB-81 -> BOUNB-80 -> BOUNB-13 -> BOUNB-83 -> BOUNB-82

What do you do to keep your sprint in schedule:
● Start the sprint meeting soon after the sprint begins and follow the plan
● Manage tasks on JIRA and allocate tasks to team members
● Discuss and exchange ideas with each other during every standup meeting.
● Regularly communicate with team members to report the process.
● Inform others and ask for help if someone encounters some issues.
● Start some tasks very early
